

CUADERNO PERSONAL

DESARROLLO DE APLICACIONES WEB

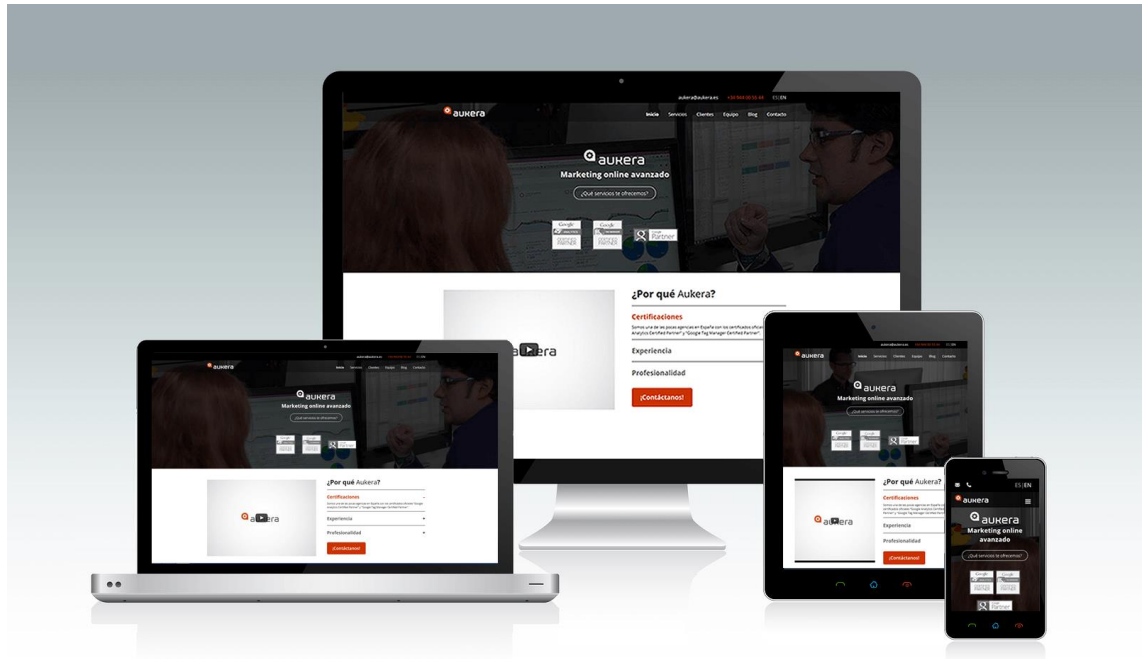

SEMANA 3 – LIBRERIAS CSS

- ¿Qué es un framework de CSS?: Un framework de CSS es una biblioteca de estilos genéricos que puede ser usada para implementar diseños web.
 - a) Ventajas: Facil de implementar en los diseños web, funcionan en varios navegadores y cumplen estándar, fiabilidad y eficacia.
 - b) Desventajas: Cuando el código crece demasiado a veces se vuelve innecesario provocando un ancho de banda y del tiempo de descarga, menor control del maquetador y limitaciones en las posibilidades del diseño web.

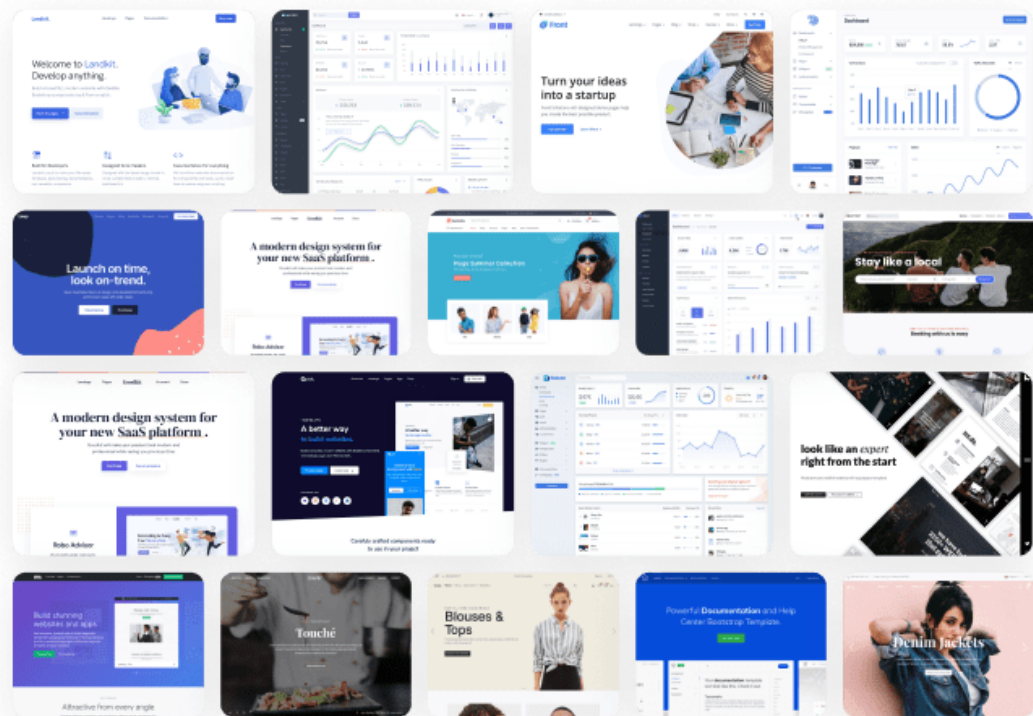

- Diseño Responsive: También llamado diseño web adaptable (RWD) es un enfoque de diseño de páginas web destinado a redimensionar y reubicar todos los elementos de una página web para que su visualización sea adecuada, garantizando de esa forma mejor usabilidad para el usuario y amplia gama de dispositivos.
 - a) Elementos clave: El tamaño de navegación, la forma de visualización, contenido en texto, contenido visuales, marca o logo y diseño visual.

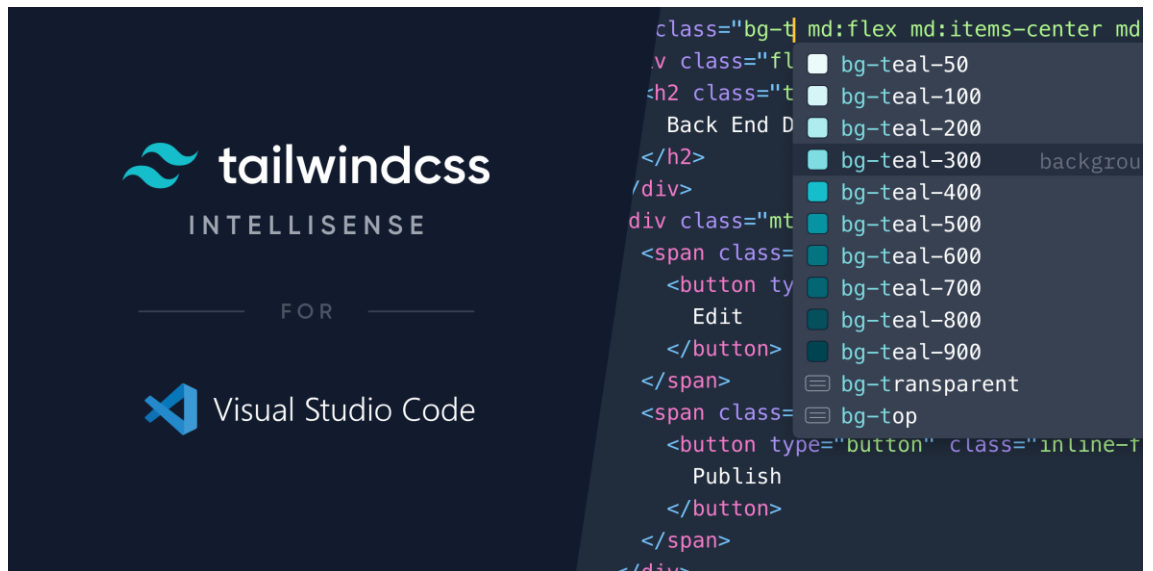

b) Breakoints: X-small, Small, Medium, Large, Extra large y Extra extra large.

- Bootstrap: Es una biblioteca multiplataforma o conjunto de herramientas de código abierto para diseño de sitios y aplicaciones web. Contiene plantillas de diseños con tipografía, formularios, botones, cuadros, menús de navegación y otros elementos de diseño basado en HTML y CSS.

- Tailwind: Es un framework CSS de bajo nivel que permite crear diseños personalizados eliminando los estilos de componentes predefinidos que necesitarías sobrescribir.
 - a) Ventajas: Desarrollo más rápido, utilidades similares a CSS, utilidades y componentes son personalizables, el archivo en producción suele ser mas pequeño y buena documentación para el aprendizaje.
 - b) Desventajas: El marco parece desorganizado al momento de realizar proyectos grandes, no es tan fácil de aprender si no dominas mucho CSS, tienes que construir desde cero porque elimina todos los estilos CSS por defecto.

PRACTICA CALIFICADA:

Código:

10	11	12	1	2	3	4	5	6	7	8	9

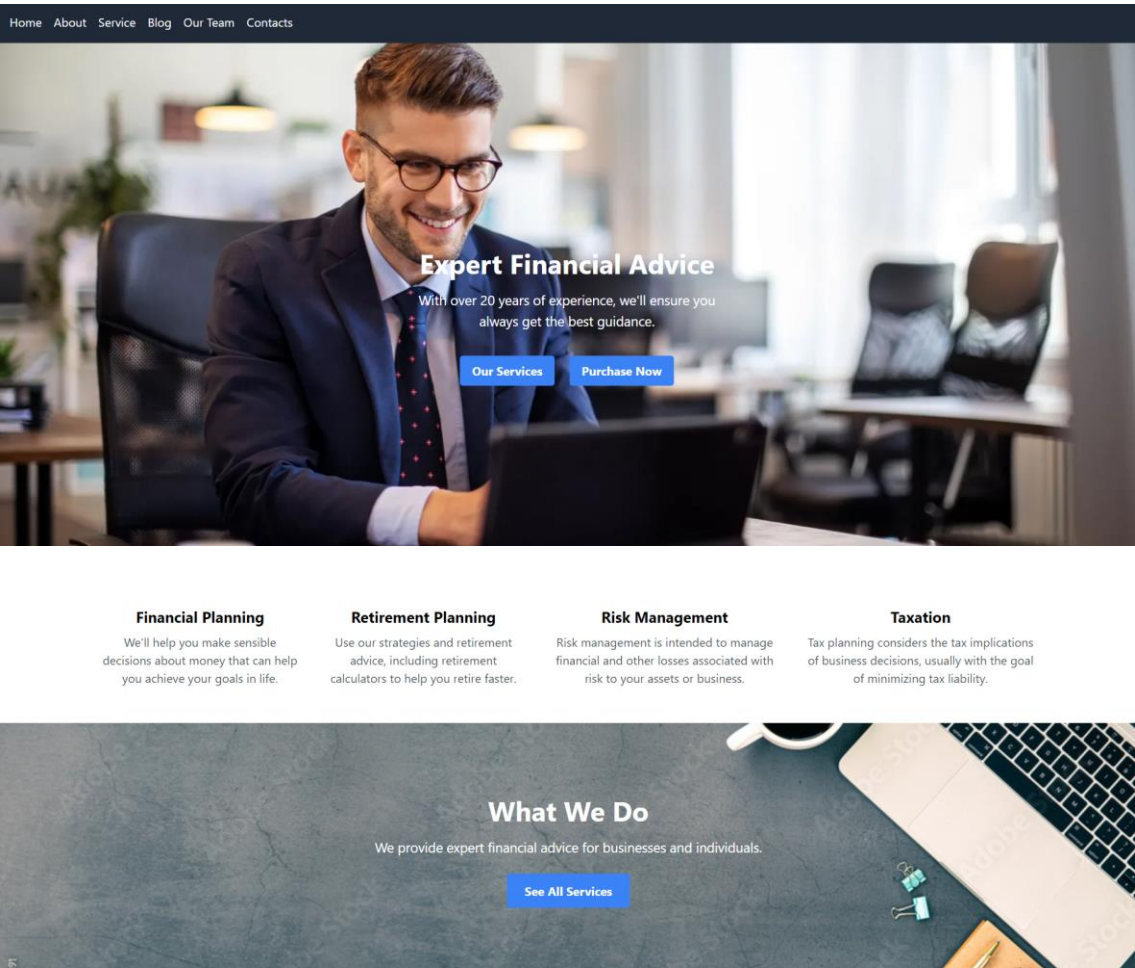

Ejercicio 3.4

Diseñar una pagina web responsive con Bootstrap que contenga un diseño según la plantilla [Plantilla BootStrap. Las características de la página deberá tener el mismo contenido texto e imagenes. Así también la misma distribución, colores, diseño, animación para pantallas sm, md, lg, xl y xxl. Segun la siguiente figura.

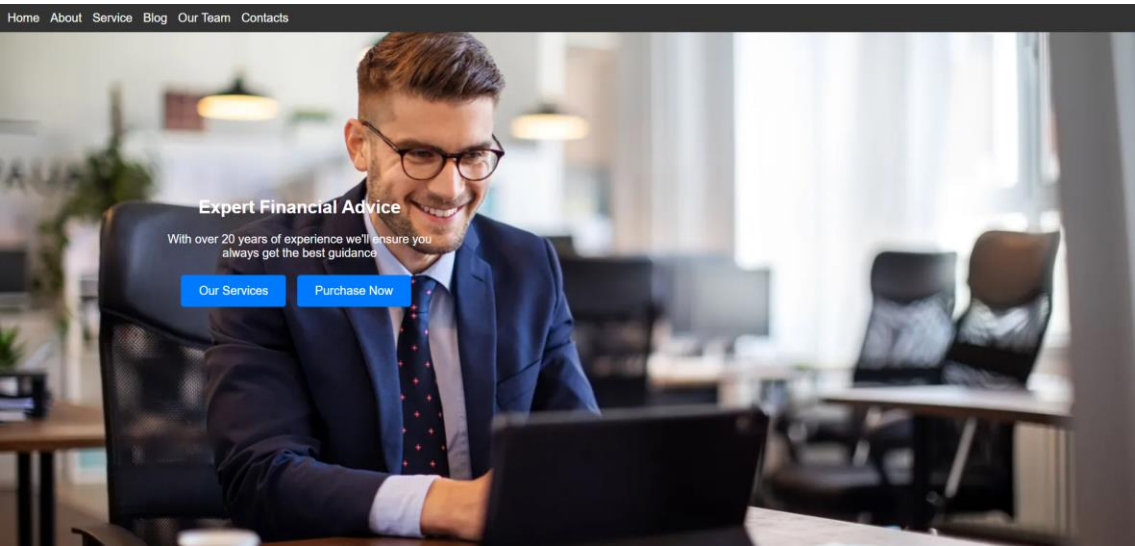

Ejercicio 3.5

Desarrollar el ejercicio 3.4 con Tailwind

Ejercicio 3.6

Desarrollar el ejercicio 3.4 con CSS puro

Financial Planning

We'll help you make sensible decisions about money that can help you achieve your goals in life.

Retirement Planning

Use our strategies and retirement advice, including retirement calculators to help you retire faster.

Risk Management

Risk management is intended to manage financial and other losses associated with risk to your assets or business.

Taxation

Tax planning considers the tax implications of business decisions, usually with the goal of minimizing tax liability.
